**RE: Modification to General Permit for Discharge of Groundwater  
Remediation Wastewater to a Sanitary Sewer  
Willow Brook and Willow Brook Pond, PCB Remediation Project  
East Hartford, Connecticut**

Dear Mr. Gonyea:

United Technologies Corporation, Pratt & Whitney Division (UTC/P&W) is herein canceling the registration for the modification to the existing General Permit for Discharge of Groundwater Remediation Wastewater to a Sanitary Sewer (Permit No. GGR001013) certified on June 28, 2001. The existing permit in place prior to this modification should remain in place as originally registered.

The modification was not utilized during the remediation and subsequently the dewatering activities have ceased and the on-site treatment system was shutdown, dismantled, and removed from the site. No further discharge will be performed and therefore the modification to the above mentioned permit is no longer required.

Please feel free to contact me or John Wotus of UTC/P&W at (860) 565-1365 with any questions or comments.

Mr. Don Gonyea
